JLG LiftPod® Personal and Portable Lift Now Available for Canada

First-of-its-kind product is CSA compliant - and ULC approved

McConnellsburg, Pa. — February 1, 2010 — JLG Industries, Inc., an Oshkosh Corporation company [NYSE:OSK] and a leading manufacturer of aerial work platforms and telescopic material handlers, announced today that the [LiftPod®](#) personal and portable lift is now available in Canada, following the approval from the Underwriters Laboratories of Canada (ULC).

The JLG LiftPod meets the requirements for CSA standard [B354.1, which calls for self-propelled elevating work platforms](#) to meet specific strength and stability requirements, including passing specific horizontal and vertical load tests. To meet the CSA standard, the LiftPod is also equipped with an alarm for use during descent, as well as redundant ropes and a brake to protect against free descent in the event of a rope failure. The optional power pack has been tested and evaluated and meets ULC certification.

“The JLG LiftPod is an excellent product option for Canadian facility managers to use to address workplace safety and efficiency issues,” said Chris Mellott, JLG Industries vice-president, sales and market development. “The enclosed work platform gives workers 360-degree access to any project at-height, and employees can work with both hands, boosting efficiency.”

The JLG LiftPod reaches a 14-foot working height and is operated using a 18-volt cordless drill or optional power pack. At 25 percent the cost and weight of traditional work platforms, the LiftPod is a lightweight tool that can be used for a variety of maintenance, renovation and repair jobs in almost any building type. A single person can assemble the LiftPod in less than 30 seconds, and it stows in the back of a pick-up truck, van or SUV for convenient site-to-site transportation.

To learn more about the LiftPod or to see it in action, please visit www.liftpod.com or contact 877-2-LIFTPOD (877-254-3876).

Forward-Looking Statements

This press release contains statements that the Company believes to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company's future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this press release, words such as "may," "will," "expect," "intend," "estimate," "anticipate," "believe," "should," "project" or "plan" or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company's control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include the consequences of financial leverage associated with the JLG acquisition, including the level of the Company's borrowing costs, the increased interest rates the Company would face if it experienced a deterioration or downgrade in credit agency ratings and the Company's ability to maintain compliance with its financial covenants under its credit agreement; the cyclical nature of the Company's access equipment, commercial and fire & emergency markets, especially during a global recession and credit crisis; the duration of the global recession, which could lead to additional impairment charges related to many of the Company's intangible assets; risks related to the required increase in the rate of production for the M-ATV and FMTV contracts, and the amount, if any, of additional orders for M-ATVs and/or FMTVs that the Company may receive; the outcome of the formal protests of the FMTV award to the Company: the expected level and timing of U.S. Department of Defense procurement of products and services and funding thereof; risks related to reductions in government expenditures and the uncertainty of government contracts; risks related to production delays as a result of the economy's impact on the Company's suppliers; the potential for commodity costs to rise sharply in a future economic recovery; risks associated with international operations and sales, including foreign currency fluctuations; risks related to the collectibility of receivables during a recession, particularly for those businesses with exposure to construction markets; and the potential for increased costs relating to compliance with changes in laws and regulations. Additional information concerning these and other factors is contained in the Company's filings with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this press release. The Company assumes no obligation, and disclaims any duty, to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.
